We created Spark out of the idea that BBQ is one of those casual, no-fuss foods that brings people together--just like beer does. It's a backyard food, where friends gather round and dig in and there's good conversation and cold beer, and it's all satisfying and good for the soul.

So we made our BBQ shack out of a repurposed shipping container and dropped it into the Schoolyard to create that festive backyard vibe. BBQ feeds the soul as well as the body. Let's Eat!

We're proud to work with these local companies to bring their unique deliciousness to your plate:

TO ORDER:

Three ways to order!

- Order at the Spark counter in the hallway or with a bartender at the Pub
- Order online via QR code and pick up at the Spark counter in the hallway
- Order and pick up at the Spark shack out front in the schoolyard
